

Internet Safety

Tips for keeping your child safe on the internet

- * Share some simple rules about not giving out personal information, using only agreed websites and reporting concerns they may have about pop-ups or inappropriate material
- * Use filtering settings on all devices—remembering that phones, games consoles and TVs may have internet access
- * Try to ensure computers and laptops are used in family rooms
- * Talk to your child about how they use the internet and what sites they like to visit—remembering that many social networking sites have a minimum age for access (Facebook=13)

‘Everything you do or say, then, should be done in the name of the Lord Jesus, as you give thanks through him to God the Father.’

Corinthians 3:17
